

# Entech Solutions

*Safety is our concern*

**WIDE RANGE OF DOORS....**

## INTRODUCTION

We Are Energetic, Enthusiastic, Young Engineers, who founded the Company in 2013. We have working experience in all over India.

We are committed to providing excellent workmanship, high quality services also offer value engineering to the project to lower costs & reduce time period.

### **We have delivered services mainly in:**

- Supply & Installation of Fire Doors / General Doors / Scientific Doors / Flush Doors.

### **OUR VISION**

Our Vision is to attain the Top notch Fire Protection Contractor with having the Best of the satisfied client and Continual Growth. Maintaining Integrity as the part of our corporate culture. The learning which is gained from years of specializing in processes allows us to keep a clear focus on our current customers and to continually build on the services we provide.

### **OUR MISSION**

Our Mission is to achieve total customer satisfaction While Delivering Innovative, Cost Effective And Value Added Services. To Ensure Growth And Professional Excellence by Maintaining Prompt execution with Distinctive Core Competencies. To Promote And Encourage Best Practices For Health, Safety Environment & Ethics.

### **OUR BELIEF**

- We Believe In Serving 100 Times A Single Customer Rather Than 100 Customers For Single Time.
- Integrity & Trust
- Ownership In Delivering Jobs
- Quality

## FIRE RATED DOORS

Fire doors are designed to protect property and life in the event of a fire. For this, the door must serve as fire and smoke barrier. Studies have shown that more people have lost lives due to smoke asphyxiation than fire.

### Fire Doors Must Serve Four main Function

- Serve as a regular door at all times
- Provide ready egress from a fire area during a fire.
- Inhibit spreading of fire.
- Protect life and property by reducing smoke hazards.

## APPLICATIONS

These doors can be used in high-rise buildings, metro railway stations, telecom centers, power plants, cellular network stations, garment processing units, shopping malls, industrial plants, multiplexes, hotels, auditoriums, software parks, restaurants, etc. Doors and frames are designed to perform and in the most demanding environment.

## GENERAL DOORS

Steel doors are more robust than timber, pvc or Aluminum and are unaffected by termites therefore are preferred by many residential / commercial / industries for various options we offer in addition to meeting safety and security parameters.

Steel door sets offer distinct advantage over other door systems. They offer higher protection against vandalism, fire, burglary and are relatively maintenance free.

**General Doors**

**Stainless Steel Door**

**Wood Grain Door**

## SCIENTIFIC DOORS

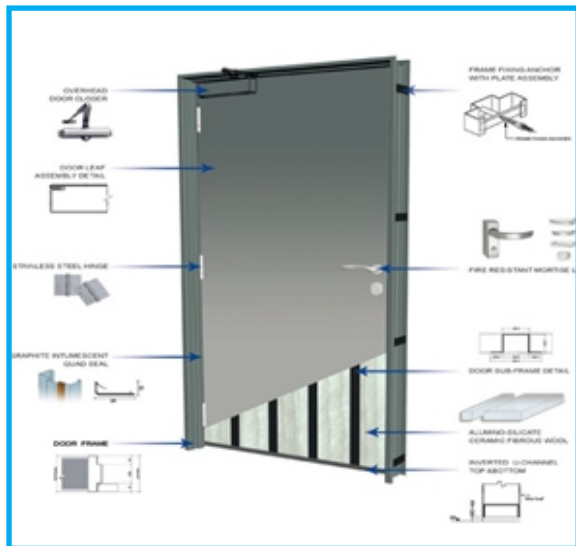

Scientific doors can withstand exposure to chemical washing and are designed to meet the most stringent requirements for clean and hygienic applications.

These Doors are extensively used in pharmaceutical, biotech, food processing companies, Micro Electronics Industries and hospitals.

## STEEL STIFFENED DOORS

Also known as Security Doors. Depending on the level of security requirement, we suggest Standard Steel-Stiffened Core Door or Hat-Style Steel-Stiffened Door. The level of protection required will determine the degree of sophistication of construction.

## DUCT/SHAFT/ACCESS DOORS

These doors are useful for providing access to an area that requires some level of protected entry. These doors are used for duct type openings, electrical room openings, terrace, etc.

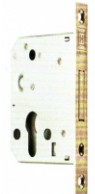

## HARDWARE

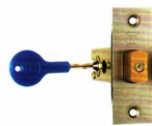

Stainless Steel Ball Bearing Butt Hinge 4x3x3mm

Mortise Sashlock BS - 65mm

Mortise Deadbolt BS - 55mm

Mortise Shaft Lock BS - 57 mm

Single Point Panic Device

Euro Profit Cylinder with Both Side Key

Stainless Steel Lever Handle Lt001

D Type Handle

Recessed Handle

Panic Device External Trim

Surface Mounted

Escutcheon ES 001

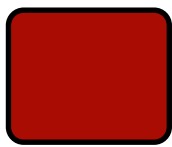

## HANDLING

| Handling | Application  |
|----------|--|
|          | <ul style="list-style-type: none"> <li>• Exit Staircase</li> <li>• Utility Doors</li> <li>• Corridors</li> <li>• Shafts</li> <li>• Others</li> </ul> |
|          |  |

## FINISHES ON STEEL DOORS

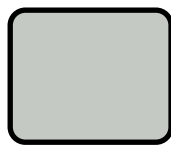

### Powder Coated Shades Offered Readily

**RAL 3020  
TRAFFIC RED**

**RAL 5015  
SKY BLUE**

**RAL 7035  
LIGHT GREY**

**RAL 8003  
CLAY BROWN**

**RAL 9001  
CREAM**

**RAL 9002  
GREY WHITE**

**RAL 9003  
WHITE ALUMINIUM  
METALLIC**

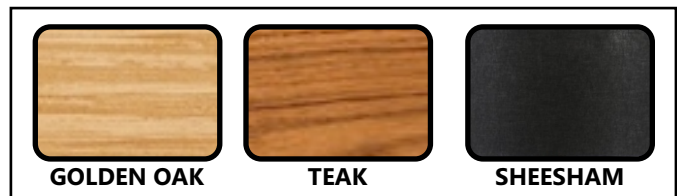

**RAL 9007  
WHITE ALUMINIUM  
METALLIC**

**RAL 9016  
TRAFFIC WHITE**

### Wood Grain Finish

Wood grain finish combines the 'strength of steel' with the 'elegance of wood' and offers the architect freedom to design interiors without the disadvantages associated with wood.
